# About

- Fullstack JS developer
- Relatively new to talks
- Everywhere I went I was dumped in the fire, and that was good.
- TRIA Ltd was established in 2009 as custom application development firm, family owned and operated company, with significant experience in consulting and integration of complex enterprise-level solutions, advanced web and mobile applications.

# Enough!

- Okay.. we can start..

**Why yarn and why  
the fu\*k workspaces?**

# Advantages?

- Dependencies will be linked together
- Better than yarn link
- Single lock file instead of multiples
- All of the projects deps will be installed together

# Limitations

- Hoisting in some cases
- No support for nested workspaces
- You cannot and must not reference packages outside the root directory
